

# Rationale

The Disability Discrimination Act, 1992 (DDA) and the Disability Standards for Education, 2005 (DSE) outline the obligations of educators to offer a student with a disability the same educational opportunities as any student without disability. The Enrolment Application and Support Process (EASP) ensures that students with disability are afforded access to, and participation in, education on the same basis as other students and that thorough planning for successful transition to school, and support at school, can occur. This reflects the ongoing commitment of Brisbane Catholic Education (BCE) towards inclusive practices in schools and is guided by the principles of justice as reflected in Church and education documents.

When an application for enrolment is made on behalf of a student for whom it is considered likely that adjustments will be required to enable the student to participate in education, and use facilities, on the same basis as students without disability, EASP is applied to plan a successful transition into a BCE school.
